Short Film Contest

NIDM invites **short films** on disaster risk reduction specifically tailored for awareness generation. This campaign aims to educate and empower community to understand and mitigate the risks associated with natural and man-made disasters. By fostering a culture of preparedness, resilience, and proactive action, we can significantly enhance the safety and well-being of our youth and community.

The competition aims to inculcate the spirit of creativity and innovation to students of higher education and ignite and inspire the students of colleges/Universities to innovate and protect themselves from the risk of disaster.

The winning entry will be awarded on the International Disaster Risk Reduction Day, 13th October, 2024.
